### **Nursing: Health & Immunization Requirements**

*All Nursing Students must have the following information on file in RIC HEALTH SERVICES prior to entering clinicals:*

- 1. An Admission **Physical Exam**
- 2. **One** dose of **Tetanus-Diphtheria-Pertussis (Tdap)** vaccine if 2 or more years since the last dose of **Td**.
- 3. **Two doses** of live **Measles** vaccine (preferably **MMR**) **or** a blood **titer** confirming immunity.
- 4. **Two** doses of **Mumps** vaccine (preferably **MMR**) **or** a blood **titer** confirming immunity.
- 5. **One** dose of **Rubella** vaccine **or** a blood **titer** confirming immunity.
- 6. **Three** doses of **Hepatitis B** vaccine. A **Hepatitis B Surface Antibody titer** to confirm sero-conversion is recommended 1 – 2 months after the final dose.
- 7. Provider documented proof, including date or age, of **Chicken Pox** disease **or** a **Varicella titer** confirming immunity **or two doses** of **Varicella vaccine**.
- 8. An initial **2-Step PPD\*\*** tuberculin skin test **and yearly** PPD updates (**or Chest X-Ray** if PPD positive and **yearly TB Assessment**, which is completed at Student Health Services).
- 9. Flu vaccine each fall semester.

**\*\* 2-Step PPD** – two separate PPDs planted at least a week apart but not more than a year apart prior to entering into Nursing Clinicals.
